How we spend our money

For several elections, many DuPage County Republicans have been voting to “send a message to Trump.” As a result, most of our local units of government are now controlled by Democrats. And they are spending your money like crazy. This year the CPI is higher than 5% for the first time since 1994 and almost every unit of local government has requested the maximum allowable increase of 5% in their property tax levy.

If you want Naperville to be run by people who understand that local government is about effective management of public safety and services, as well as maintaining a good mix business and residential zoning, please consider these candidates.
